Re: West Pittston Borough - Dog Park

Dear Residents:

Reference is made to your July 19, 2020 email to me regarding the re-opening of West Pittston Borough's dog park. In that regard, the West Pittston Borough Council has asked me to communicate with you regarding the continued closure of the dog park during the Covid-19 pandemic. Specifically, although the Borough is not prohibited at this time from re-opening the dog park, the Borough is required to adhere to state guidelines and regulations, including social distancing, wearing of masks, cleaning of the dog park, etc. Currently, the Borough does not have any available personnel who can be assigned to the dog park from opening to close to enforce those obligations. Equally, the Borough does not have budgeted funds available to hire such an individual. Unless and until the Borough has a hired or volunteer who is able to monitor the dog park during all hours of operation, the West Pittston Borough Council has decided to keep the dog park closed until such time as it can ensure the safety of the public and comply with all rules and regulations.

Very truly yours,

Gloria Kijek,

West Pittston Borough Secretary
